# Introduction

Islamic society is founded on the principles of belief and righteous conduct. This connection between values and practice lies at the very heart of the Islamic way of life. To be a Muslim requires that one's faith be reflected in one's practice and daily moral conduct with other people.

We have the beautiful teachings of the Holy Qur'an and Prophetic Sunnah as our foundation. The challenges of modern times call for rebuilding the structure of our educational program on such a foundation as to fulfil our spiritual as well as worldly obligations.

Today we need an education system which can produce, Muslim Daee, Muslim Philosopher, Muslim Scientist, Muslim Economist, Muslim Jurist, Muslim Statesman, in brief, Muslim Experts in all fields of knowledge who would reconstruct the social order in accordance with the tenets of Islam.

The Islamic values education curriculum called for at Iqra focuses on personality and character development of children, close attention to the real needs and concerns of students, and preparation of students with the critical thinking and problem-solving skills needed to function successfully as Muslims in society.

Muslim educators and parents must develop a better understanding of how children grow and learn, we must understand the process of moral development and the methods of effective teaching and learning. Our children will not become moral individuals simply because we want or tell them to do so. They will become moral individuals by cultivating their minds and hearts, and by having opportunities to actually see and apply Islamic values in practice.

Knowledge is the most important thing in one's life. The Holy Prophet of Allah, Mohammed (saw) has said: "Talabul ilmi faridhatun ala kulli Muslim" it means: "Attainment of knowledge is a must for every Muslim" (Ibn Majah, Hadith no. 224). Keeping this in mind we have been trying to provide education at par with the international standards to students coming from different strata of the society. To inculcate high moral value, love for humanity, patience and perseverance.

**Islam is not about we are better than you, Islam is about let me show something better for you**

# Our Achievement

Iqra International School & Maktab was established in 2010 with an enrolment of 272 students, from Nursery to Grade 6th. Alhamdulillah, now we have branches spread all over India with more than 4500 students studying in Nursery to X<sup>th</sup> Std and Jr. College. It is by the grace of Allah Subhanahu wa Ta'ala that we have been able to open branches in different parts of our country. May Allah Subhanahu Wa Ta'ala accept our humble efforts and guide us in providing quality education (Ameen).

## School Curriculum

We follow NCERT / NIOS / State Board syllabus which includes English, Regional language (Marathi, Hindi, Urdu, Kashmiri, Telugu) Mathematics, Science, Social Studies and Computer education combined with Islamic studies of renowned university of Makkatul Mukarramah which includes Tajweed, Qur'an Hifz, Islamic Studies, Sirah of the Prophets, Word to Word English translation of Qur'an and Arabic Language. We also believe in introducing the child to education beyond the classroom environment through Educational Excursions, Quiz, Science Exhibitions, Sports and Public Speaking.

# Iqra Syllabus

## Arabic Language

We are teaching Dr V Abdur Rahim's Arabic language course Durusul Lugatul Arabiya, published by Good Word. This book is taught at the Islamic University of Madinah.

## Islamic Studies

We are teaching Islamic education series of Ad-Darut Talimiyyah, approved by Kingdom of Saudi Arabia, Ministry of Education.

## Academic

We have made our own books based on the concept of world famous publications. The books are in line with NCERT and various state boards.

## Need to make Academic Books

- Arabic language and Islamic studies books are available from authentic, universally accepted and reputed Islamic University of Makkah and Madinah. But academic books available are mostly from un Islamic publishers.
- To save children from publishers knowing or unknowing errors.
- Reputed publisher's books are found with texts and pictures which are in direct conflict with our religious beliefs.

**One must always be careful of books and what is inside them, for words have the power to change us.**

# Iqra's Unique Concept Of One Academic and One Islamic Book per Month

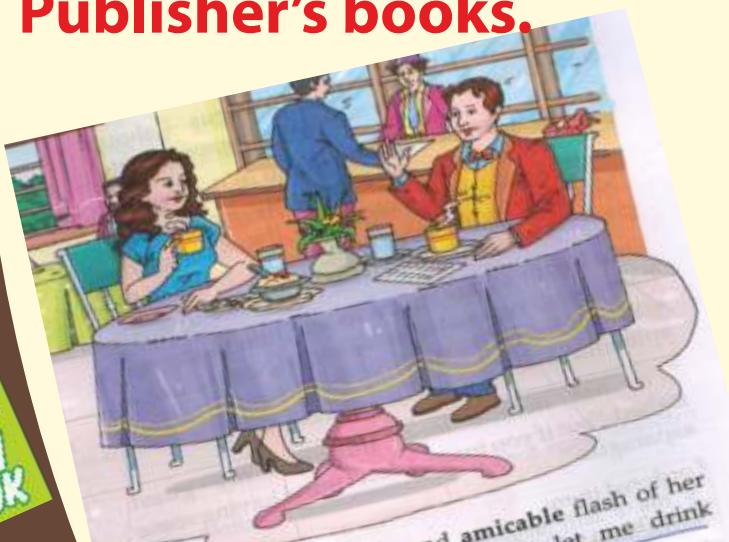

- In all schools one, two or three lessons are taught per month. Iqra follows the same method.
- No need to carry all books. Reducing child's burden.
- Psychologically child is happy to learn from one book per month rather than the piles of books stuffed in his school bag.
- No need for lesson planning. Teacher has to complete portion as given in the Iqra book.
- Teacher gets time for revision.
- Teacher gets time for explanation.
- Easy to take assessment test every month to check child's understanding and learning abilities.
- Easy for parents to know and focus on child's learning.
- Very important point --- there is "NO" un-Islamic content in IQRA BOOKS

**The Prophet Muhammad (SAW) said:**  
"Anyone who believes in God and the Last Day (of Judgment) should not harm his neighbor. Anyone who believes in God and the Last Day should entertain his guest generously. And anyone who believes in God and the Last Day should say what is good or keep quiet."  
(Sahih Al-Bukhari)

## Examples of Objectionable matter in Publisher's books.

She gave me a bright and amicable flash of her white teeth. "My doctor won't let me drink anything but champagne."

I fancy, I turned a trifle pale. I ordered half a bottle

After a singular noun (for example after he, she, it or Benny) the ends in -s or -es.

We say Laxmi watches a film every Saturday night.

She gets up late on Sunday morning.

wrong to say Laxmi watch a film every Saturday night.

get up late on Sunday morning.

# Extracurricular Activities

## Sports Day

IQRA sports day is conducted in winter to save children from harsh and hot climate. Students take part in competitive sporting activities, often with the aim of winning medals, trophies or prizes. A day full of energy, enthusiasm, sportsmanship and hard work.

Sports day events are wide and varied. It includes straightforward sprints and longer races for all age groups as well as butterfly race, banana race, animal race, lemon and spoon race as well as dodge the ball for mothers and tug of war for fathers. A day to remember. **A day to cheer up with takbeer "Allahu Akbar"**

## Annual Day

IQRA Annual day is the much awaited spectacle, be it the group or individual performances. From Nursery to Xth Std. each grade contributes Nasheeds, English and Arabic public speaking, Skits, Quran recitation, Dua and Hadith. Showcase of Team work of IQRA staff, students and parents.

It is certainly one of the most eagerly awaited events of the year in IQRA. Everyone is greatly excited for the event and the preparations are in full swing weeks before the actual event. It is a grand occasion for every member of the school including the students, teachers and even the other staff members who contribute sincerely to the growth and progress of the school all year long.

## Picnic

IQRA students are taken for annual excursion & picnic so that they are taught about nature and science outside the school premises.

**O mankind, indeed We have created you from male and female and made you peoples and tribes that you may know one another. Indeed, the most noble of you in the sight of Allah is the most righteous of you. Indeed, Allah is Knowing and Acquainted.(Al Quran 49:13)**

# Extracurricular Activities

## Salad / Cooking Competition

Every year salad and cooking competitions are conducted for higher standard girls. This event is a show case of their creativity, team work and understanding of one of their prime responsibility.

## Projects

Every year group of children are given projects assignments to experience team work, create vision and highest level goals . Project topics are chosen from current world affairs such as environment hazard, water conservation, forest conservation, energy saving etc. to make them understand the current crisis and their solution.

## Inter School Student's Competition

IQRA School conducts interschool student's competition for Tajweed, Tahfeez, Arabic & English public speaking, Hand writing, Essay writing, Drawing, Mental Maths & G.K to develop competitiveness, confidence and courage in students.

## Inter School Teacher's Competition

IQRA School conducts interschool teacher's competition for teaching aid material, class room demo, planing & use of smart board to maintain teaching abilities in staff. Also allow staff to share their valuable experience & ideas. Best teachers are ranked and honoured with prizes & trophies.

## EID & Iftar Party

Iqra students celebrate eid party in school. They wear coloured dress , play quiz, brain games, eat, drink & enjoy the day. School gives take away to children during Ramdhan for iftar.

## Our Vision

Our vision is to develop strong and highly-educated Muslim persons by giving them Islamic and academic education, who are articulate, reflective and open to others' point of view, have the confidence to express themselves and discuss ideas, actively contribute towards their own and others development.

## Our Aim

It is our aim to impart a balanced system of education comprising of Academics and Islamic Studies to our children. We strive to help them excel in subjects like Mathematics, Science, English, History, Geography, Computer Studies etc. We nurture and encourage our children to develop their innate creativity and inquisitive nature in the pursuance of academic excellence while anchoring their hearts and souls in a moral framework of a virtuous and righteous life. This insha'Allah will help them become active, compassionate and lifelong learners.

## Our Mission:

To help our students pursue excellence in education, to develop compassion, Intellect and Integrity and become a successful human beings in this world and the hereafter.

## Our Quality Policy

In quest for perfection, we are all here to bring up a new generation adhering to Quran and Sunnah, equipped with changing life and unpredictable future.

Everyone endeavors to create constancy of purpose towards improvement of the student and the service provided.

We all aspire to develop outstanding students who use discipline, motivation and self direction to reach their fullest potential.

Means to achieve our goals reside in providing training for students, teachers and administrators, creating Islamic environment and teamwork spirit and above all an open door policy, as well as a positive caring atmosphere across the entire school.

**And when My servants ask you,  
[O Muhammad], concerning Me - indeed  
I am near. I respond to the invocation of  
the supplicant when he calls upon Me.  
So let them respond to Me [by obedience]  
and believe in Me that they may be  
[rightly] guided.(Al Quran 2:186)**

## Values-Based

The aim of Islamic education is to produce "good human beings".

- Accordingly, instruction focuses on values and considering the ethical dimensions of topics. In this way, Islamic education becomes a powerful vehicle for character development, thus achieving its true goal.
- Teachers realise that every aspect of the teaching and learning experience convey values and provide opportunities for students to learn about values.

## Active

Great deal is demanded from both, teachers, and students.

- The teachers are actively and genuinely engaged in the teaching process – making plans, choices and curriculum adjustments as needed, rather than mechanically following a manual.
- Teachers are prepared to continuously update their knowledge, adjust goals and content to students' needs, take advantage of unfolding events and teachable moments, develop examples that relate directly to students and other practices that facilitate active and meaningful instruction.
- Furthermore, effective instruction emphasises hands-on activities that call for students to react to what they are learning and to use it in their lives in some meaningful way.

## Challenges

- Students are challenged to thoughtfully examine what they are studying, to participate assertively in group discussions, to work productively in cooperative learning activities and to come to grips with controversial issues. Such activities and experiences will help foster the skills needed to produce competent Muslims capable of presenting and defending their beliefs and principles actively.

**The Prophet Muhammad (SAW) said:**  
"The learned are heirs of the prophets, and the prophets do not leave any inheritance in the form of (monetary wealth), but they do leave knowledge as their legacy. A person who acquires knowledge, acquires his full share (of this legacy)." (Riyadh-us-Salaheen:1388)

# Instructional Standards

- Certain instructional standards are in place for meaningful and authentic teaching and learning to occur. Achievement of student increases when these standards of instruction are implemented.

## Computer Studies

- Computer education is a must in this world that revolves around computers. At Iqra we understand this need to impart up to date computer education to our students.
- Our specialized teaching staff makes sure our students are up to date in this fast paced world. Alhamdulilah, we have a separate computer room, so that our students gain hands on practical knowledge about computers.

## Islamic Studies

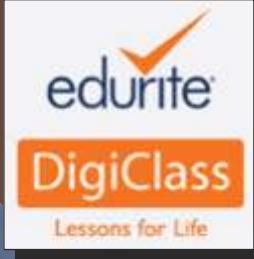

Islamic Studies is a conscious and systematic effort to understand Islam. Ignorance is the main reason Muslims these days have become victims of false notions; they are not in a position to clarify the misconceptions about Islam. To enable our future Ummah to face this challenge, we at Iqra feel it is necessary to imbibe Islamic studies in our curriculum. It has been our practice to sort students in small groups for better concentration and individual attention. We have qualified Aalims/Ulemas who teach Tajweed, Hifz of Qur'an, Islamic Studies, Sirah of the Prophets and Arabic Language. A learned scholar from King Saud University, Riyadh, Kingdom of Saudi Arabia is the Head of the Islamic studies department.

## Martial Arts

At Iqra we believe in the mental as well as physical development of the student. It has been our constant effort to introduce the child to education beyond the classroom environment through physical activities. We have Martial Arts like Taekwondo included in our school time table. We also organize our Annual Sports events, which is immensely enjoyed by our students.

We always think what will happen to our children after we Die.  
But we should really think what will happen to our children after they Die

# Audio Visual

At Iqra we impart the audio-visual method of teaching which helps the teacher to clarify, establish, correlate & co-ordinate accurate concepts, interpretations, appreciation and enable the child to make learning more concrete, effective, interesting, inspirational, meaningful, vivid etc. These Aids help in completing the triangular process i.e. Motivation, Clarification and Stimulation. These Aids provide significant gains in informal learning, retention and recall, rethinking and reasoning, activity, interest, imagination, personal growth & development. It has been our conscious effort to teach with the help of interactive touch screen smart class rooms.

## Events

We believe it is important for a student to not only gain knowledge in these formative years of their lives, but also to get involved in social activities and enjoy school life. We provide a platform for students to express and interact with one's peers and teachers, by hosting Eid parties, Annual functions, Picnics, Competitions, Exhibitions and Sports events.
